EVIDENCES THAT PROOFS THAT AL-QAEDA ATTACKED THE STATE OF ISRAEL, UNLIKE DAESH (ISIS)

Al-Qaeda had created numerous jihadi organizations such as:

- Jund Ansar Allah, from 2008 to 2009, was a jihadi organization who operated in the Gazza city. Founded by Sheik Abdel Latif Moussa, who established the Islamic Emirate of Rafah in Gazza. The group was strongly against Hamas for failing to enforce Sharia Law, so Hamas then defeated on a battle.
- Jamaat Tawhid wal-Jihad in Gaza, from 2006 to 2012, was a Sunni Islamist Palestinian group in the Gaza city and the Sinai Peninsula. The group was founded due to the messages of Osama Bin Laden and Ayman al-Zawahiri supporting the Palestinian people. The group was active until 2012.
- Jaish al-Ummah, from 2005, possibly present or defuncted, is, or was, a small Palestinian Salafi Jihadist militant organization opreated in Gaza, the group have alleged to ally al-Qaeda, but critical of Hamas. The group started to shoot rockets and other explosives into the State of the Dajjal (State of Israel).

Unlike ISIS, who had groups in Palestine, but many of them hated the mission to free Palestine, indeed they wanted to take Palestine to make another Wilayat, killing civilians, including other salafi organizations.

Numerous videos, published mostly by As-Sahab and Al-Malahem media productions, showed support of the Palestinian people and even the Sudanese people who are suffering against the apostate and enemies of Islam. For example, Osama bin Laden and Ayman al-Zawahiri used to spread messages via videos and texts, they mostly expressed positive messages to the Palestinian people. Now, there are videos from months or days ago where al-Qaeda shows supports towards the people of Palestine, Shahed media recent video is about the crisis which Sudanese are suffering for the fault of the apostate United Arab Emirates. A slogan created by As-Sahab: "O Aqsa, We Are Coming". Unlike ISIS who created videos and post news killing Muslims and executing unarmed people.

Many people started to accus that ISIS is controlled by the State of Israel, but why they don't dare to say the same to al-Qaeda? Because al-Qaeda attacked, in the past and present, against the State of Israel constantly, by using videos or weapons of fire. But why ISIS doesn't do the same? The ISIS focus on invade every territory to supposedly establish Sharia on their controlled territories, which they don't have anything. If ISIS had to focus on Palestine, they would be killing anyone without mattering to know who is a Palestinian and who is a Jewish, unlike al-Qaeda who knows who kills, and doesn't slay unarmed civilians. This shows that al-Qaeda really knows the laws of Prophet Muhammad PBUH, but ISIS follows the laws of war of Netanyahu.
